

Elect

LOWELL WALLACE

STATE REPRESENTATIVE

I will work hard in Augusta for the things most of us truly believe are essential:

MAINE IS IN TROUBLE, SERIOUS TROUBLE!

Government spending that increases faster than inflation **kills jobs** and **forces cuts** in services. Government spending in Maine has been growing more than the rate of inflation.

Constitutional government was suspended in Maine on March 15. We now know what one-person, one-party rule looks like and we've seen the damage it's done to the lives and livelihoods of Mainers.

If you're looking for someone who will "go along to get along" I'm not that guy. But if you want **someone to make sure your ideas and concerns are heard in Augusta**, please give me your support!
