

A Progressive You Can Vote For!

Rockland ★ Owls Head

An Activist For Civil Rights

Mike organized a Civil Rights Forum on September 19th. He brought together Republicans, Democrats, Greens, and Independents to support our shared rights, and he spoke about the need for judicial reform and property rights.

A Conservationist

Mike is an advocate for our rivers and streams. He has partnered with Inter-Fluve to do an assessment of Lindsey Brook, and wants to make Tennyson Quarry into new habitat for sea-run fish. He is launching a non-profit to give grants to herring runs across the northeast.

A Community Organizer

When health care workers needed PPE in March, Mike started the Mid Coast Pop Up Factory, where he and more than 30 volunteers made over 7,000 masks to provide for the people in his community.

An Advocate For Affordable Housing

Mike is THE affordable housing candidate in 2020. He has 25 years of experience developing hundreds of units of high quality affordable housing and working with HUD. He will lead an effort to bolster MaineHousing and build new affordable housing and renovate existing housing. He will make sure the state supports smart growth for Maine's cities and keep Maine affordable for everybody.

A Historic Preservationist

Mike's preservation of the Antiques Marketplace is an example of his hands-on approach to making things happen in this district. Mike renovated a historic mill into mixed-income apartments and preserved it for future generations. His ideas include expanding historic tax credits for Maine's downtowns, providing revitalization and beautification that will boost summer tourism and preserve our history.

An Entrepreneur

Mike runs a small business incubator in an old MBNA building. He is opening a new Makerspace in Rockland at the Antiques Marketplace. Mike taught a startup leadership program, and he founded the Lean Startup Challenge. His proposal for an industrial eco village at the Apollo Tannery in Camden is another example of his support for an entrepreneurial ecosystem.
