

The PBVA Difference

Our mission is...

"To enhance the human-animal bond by offering exceptional service, education, and care to help our clients provide a healthy lifestyle for their pets."

Our mission means...

Online appointment scheduling
Decreased wait times for our clients
Helpful and compassionate staff members
A clean, friendly, and odor-free environment
State-of-the-art technology and diagnostic services
An interactive website, featuring our *Pet Health Library*
Extensive client education so you can make informed decisions

PBVA's Services

- State-of-the-art laser surgery.** Our brand new surgical suite provides for the performance of a wide variety of surgical procedures including state-of-the-art 20 watt laser surgery. During surgery our patients heart rate, temperature, blood pressure, and oxygenation are monitored closely. Our surgeries are performed on a comfortable heated V-top surgery table.
- Individualized vaccine programs.** We take an individualized approach to vaccines. There are many factors that we take into account when developing your pet's vaccine program including, age, breed, and lifestyle.
- In-house laboratory and blood work.** PBVA's in-house diagnostic laboratory allows us to have blood, urine and parasite results in minutes to ensure your animal is treated as soon as possible. Our equipment includes blood chemistry and electrolyte analyzers, a flow-cytometer for blood cell analysis, and a thyroid hormone monitor. PBVA's laboratory allows us to provide the best care for your pets' health with complete blood screening. Ask about our geriatric health screen! We also use commercial veterinary laboratories for specialized diagnostics and pathology.
- The industry's best dental services and equipment.** Dental health is an essential component of your pet's overall health and well being. Our dental services include complete dental examinations, teeth cleaning and polishing, extractions and oral surgery. We use ultrasonic dentistry equipment to ensure the best results and maximum comfort for your pets.
- Radiology services.** Our new veterinary-specific X-ray equipment provides high quality radiographs to aid in the diagnosis of many disorders. Automatic film processing enables us to have diagnostic films processed in 90 seconds.
- Emergency care.** We provide 24-hour emergency services. Please call our main telephone number for instructions for after-hour emergencies.
